Subject: Pelham - Public Water System: Pelham Getty (EPA# 1858130)

Dear Mr. Zegouros:

Based on the submission of water samples and documentation that the significant deficiencies identified during the April 2005 sanitary survey have been corrected, DES has determined that the violations noted in Letter of Deficiency# WSEB 05-159, dated September 30, 2005, have been corrected. This letter will also serve to close out the Notice of Violation, dated November 11, 2005, concerning the sanitary seal on the bedrock well. We appreciate your cooperation in resolving these matters.

If you have any questions, please contact me at (603) 271-2854 or by e-mail at aleach@des.state.nh.us.

Sincerely,

Alan Leach
